Portfolio: <https://reacttailwindportfolio.vercel.app/>

## PROFESSIONAL SUMMARY

Detail-oriented Java Developer experienced in building scalable web applications using Spring Boot, RESTful APIs, and MySQL. Strong foundation in Object-Oriented Programming, Data Structures, Microservices Architecture, and full stack development with React.js and Angular. Demonstrated ability to enhance performance, improve reliability, and deliver maintainable solutions.

## TECHNICAL SKILLS

- Languages: Java, JavaScript, Python (Basics)
- Backend: Spring Boot, Spring Data JPA, RESTful Services, Microservices, Hibernate, MVC Architecture
- Frontend: React.js, Angular, HTML5, CSS3, Tailwind CSS
- Databases: MySQL, PostgreSQL
- Tools: Git, GitHub, Postman, Docker, IntelliJ IDEA, Eclipse
- Core Concepts: OOP, Data Structures, Exception Handling, API Integration, Agile Practices

## WORK EXPERIENCE

Apprentice – Electronics Corporation of India Limited (ECIL), Hyderabad (Jan 2025 – Jan 2026)

- Enhanced internal software modules by applying structured coding standards and modular design principles.
- Resolved more than 20 application defects, increasing system stability and reducing runtime errors.
- Collaborated with functional teams to analyse requirements and streamline development workflows.
- Supported unit testing and documentation processes, ensuring high compliance with quality standards.

## PROJECTS

E-Commerce Platform – Spring Boot | MySQL | Angular | Razor pay [Link](#) Architected RESTful APIs for product, user, and order management.

- Integrated Razor pay payment gateway enabling secure online transactions.
- Improved database performance by optimizing queries, reducing response time by 30 percent.
- Structured backend using MVC principles and centralized exception handling.

E-Mart Frontend – React.js | Tailwind CSS [Link](#)

- Designed reusable user interface components using modern React architecture.
- Managed application state with Context API for seamless cart functionality.
- Connected frontend to backend services for dynamic product rendering and improved responsiveness.

## EDUCATION

BTech – Electronics and Communication Engineering | Priyadarshini Institute of Technology & Management (2019 – 2023) | CGPA: 6.23/10
